

Ideal for sensitive wall systems where low PSI mortar is crucial to wall integrity.

The Perfect Mortar for Masonry Restoration

TYPE O TUCKPOINT COLORED MORTAR

WORKRITE® Tuckpoint colored mortar is a Type O masonry cement designed with a minimal percentage of Portland to create a mortar for use in historic restoration and tuck-pointing applications.

This formula is created with the utmost care to ensure that the integrity of the mortar product conforms to ASTM requirements and the standards of the masonry industry.

WORKRITE® offers a variety of colors which compliment most masonry projects. We also have the ability to formulate special colors upon request.

MEETS ASTM SPECIFICATIONS:

- C 91 Specification for Masonry Cement
- C 270 Standard Specification for Mortar for Unit Masonry
- C 979 Pigments for Concrete
- C 780 Preconstruction and Construction Evaluation
